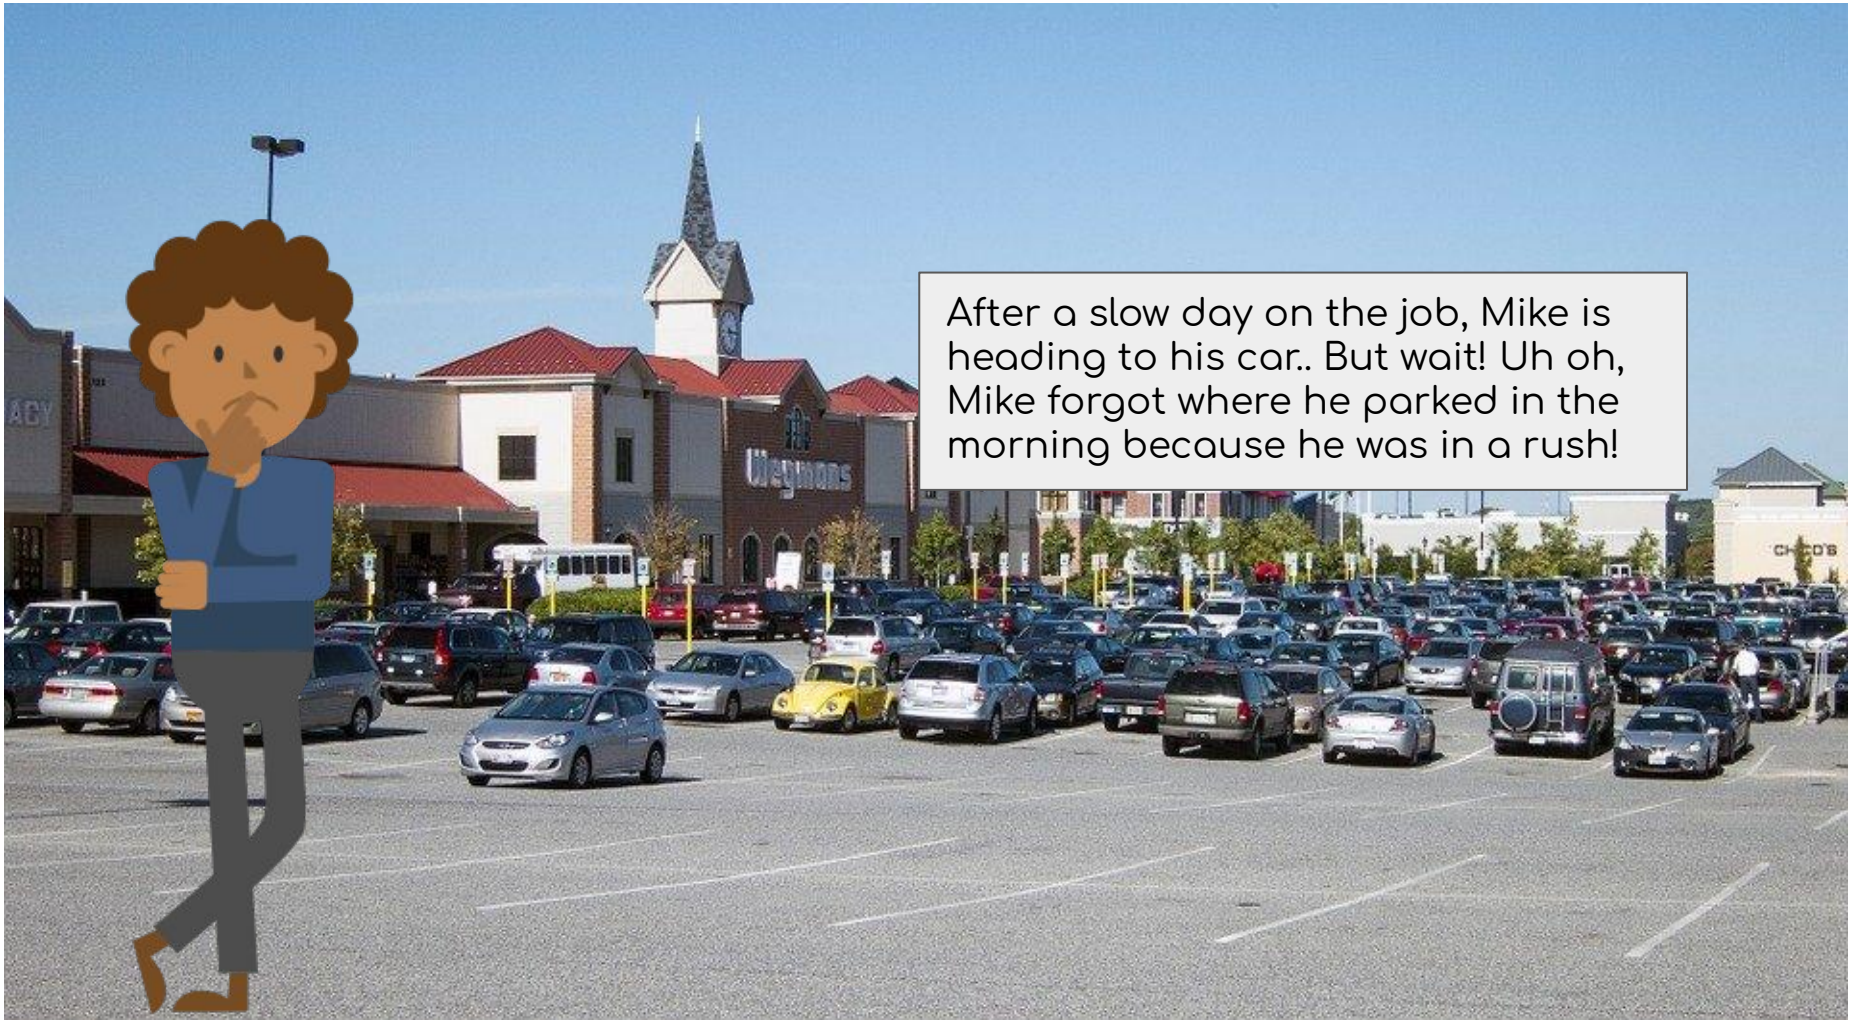
Eduardo Lopez-Barajas.

Mike Henderson is a young computer engineer. He partied a little too hard the night before,so he is hesitant to get up for work!

Mike rushed out of bed, put some clothes on, and is off to work! He doesn’t want to be late!

Mike finally arrives at his job, but can't find a parking spot in the front, oh no!
Frantically, he finds a spot in a place he has never parked before.

Just on time boss!
Relieved he got there just on time, Mike greets his boss and gets to work.



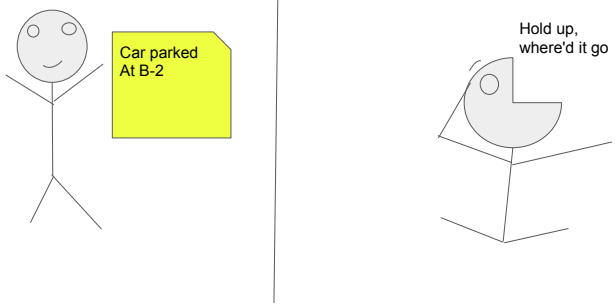
Wegmans
After a slow day on the job, Mike is heading to his car.. But wait! Uh oh, Mike forgot where he parked in the morning because he was in a rush!

Luckily, Mike has our app, which will lead him to his car the quickest and safest way possible!!

Mike finds his car and now he can track his car stats and more! But most importantly, he can now go to what he’s been craving all day...

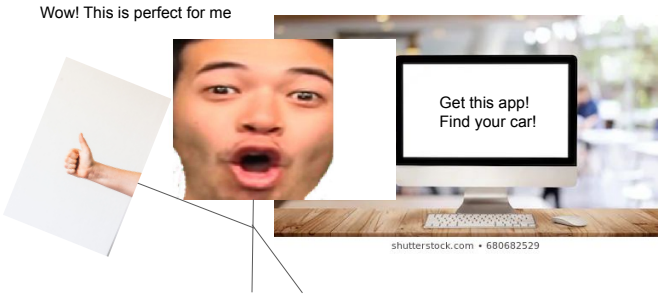
HE GONNA GET A BURGA

Andrew works at a very crowded office space and when he gets to work he always parks somewhere and forgets where he parks as the cars pile in

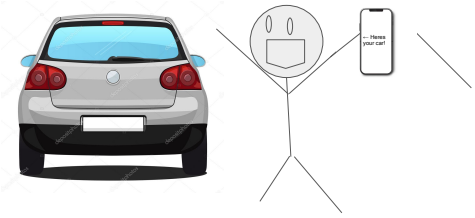


Initially he would write it down on a post it note but he would usually forget about it or lose the note

He is also unable to find his car due to how many people are trying to find their cars too so he cant hear his car go off. He is starting to become worried as he is starting to come home later and he should and its affected his work.

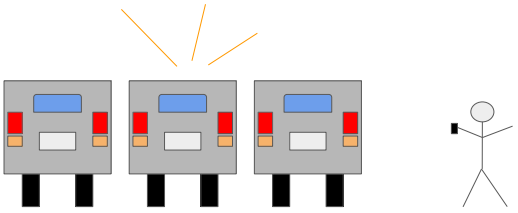


Andrew needs a better solution, so he goes online and finds our app

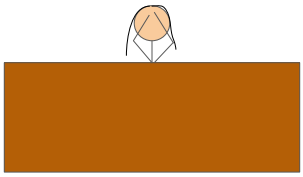


After downloading the app, the next day he parks his car and marks his location

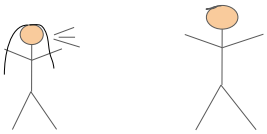
After a long day of work Andrew checks our app and using the provided map he is easily able to find his car and go back to his family



Someone cannot find their car in the large, dense parking lot, so they use their car alarm to find their car.

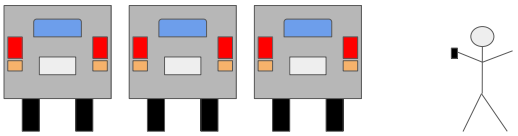


Stephanie is frustrated with the constant noise, and cannot focus on her work.

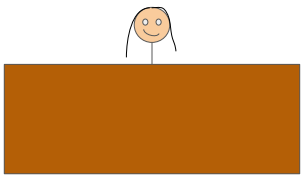


Stephanie complains to her boss about the constant noise, who decides to do something about it.

Stephanie's boss notices an app on the app store that can show you where your car is without you having to use your car alarm, and makes it mandatory for all employees at the office.

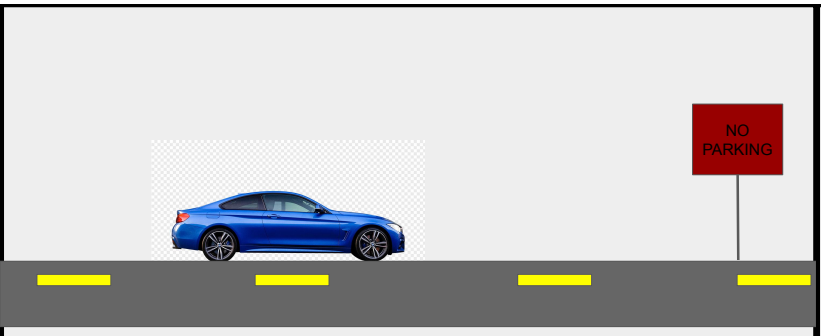


Now, people can find their car silently without using their car alarms.



Stephanie is no longer constantly bothered by loud car alarms, and can focus on her work.

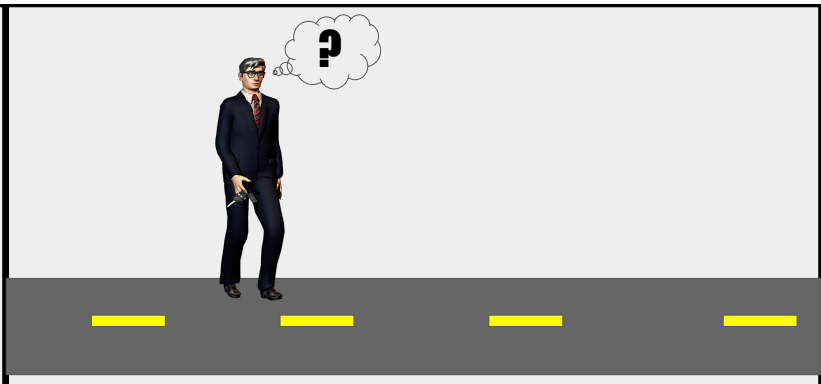
Bryson Lowe



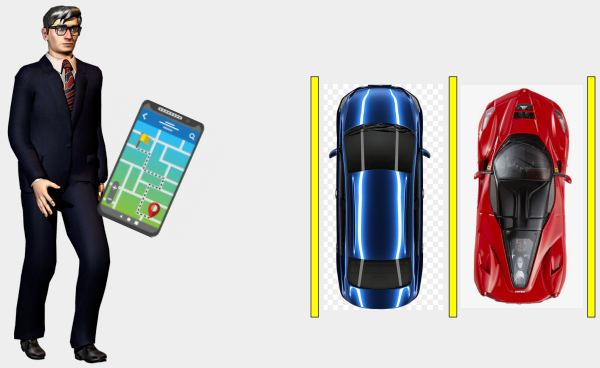
Peter is late for work and is in desperate need of a parking spot.

He finally finds a spot to park two blocks away from his office building. Peter quickly parks and runs into work.

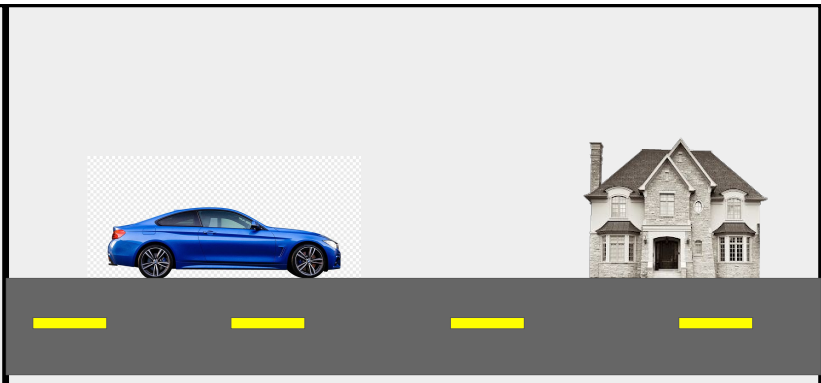
Peter makes it into his office and works through his eight hour shift.



As Peter leaves his office, he cannot remember where he parked his car.



Luckily, Peter has our app that will show him exactly where he left his car, and take him directly to it.



Peter finds his car with ease and is able to make it home to his family on time.
