

Scenario

You are an office worker who had to rush in the morning to find a parking spot to get to work on time. You are in such a hurry that you don't even check where you parked. Later that day when you get off of work, you can't find your car! You use the app to locate your car.

Tasks

1. Find your car
2. Find your MPG
3. Find how much time spent over the speed limit
4. Find how many stop signs you have gone through,

Notes

3 Things I should change-

- More features
- Customizable home screen
- Another way to connect other than bluetooth

3 Things you loved!-

- The logo
- User friendly
- Layout
- aesthetic
